

Expedite your Time to Analytics with **Lucid**, a **consulting** as a service **subscription** helping **unlock** the **value** of your data.

## How does it work?

-  Subscribe and begin loading your backlog with unlimited requests.
-  Backlogs are managed and prioritized by you or a member of your team.
-  Strict no meeting policy unless required by Lucid developer.

## What are the benefits?

-  No surprises or hidden costs with a fixed monthly rate subscription.
-  No long-term commitments. Subscriptions can be cancelled at any time.
-  Support across the full data stack for less than the cost of a full time report developer.

## What's included in your subscription?

-  Microsoft Fabric workload development
-  Power BI semantic modeling and reporting
-  Data modeling and data warehouse design
-  Data integration for batch and streaming data
-  Data engineering via Spark processing patterns

\* Lucid leverages only Microsoft data services and platforms
